

## **Export of Organic Products from India to Canada.**

1. The USDA accredits OneCert International.
2. The US-Canada Organic Equivalency Agreement (USCOEA) allows products certified by a USDA-accredited certified to be exported to Canada from anywhere in the world.
3. The USDA-NOP certificate issued by OneCert International will contain the mandatory USCOEA attestation statement.
4. A copy of your USDA-NOP certificate must be sent with organic products being exported to Canada.
5. A Transaction Certificate issued through Tracenet must also accompany each shipment of organic products.
6. The NPOP-NOP certificate is not valid for exports to Canada because India does not have a recognition agreement with Canada.
